DETAILED ACTION

Information Disclosure Statement

The information disclosure statement filed Nov. 17, 2005 fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; **(4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement.** The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

Claim Objections

Claims 3- 14 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim *should refer to other claims in the alternative only, and/or, cannot depend from any other multiple dependent claim.* See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Allowable Subject Matter

Claims 1 and 2 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: patentability resides, at least in part in the anisotropic conductivity connector having an elastic polymer material for forming elastic anisotropic conductive films is an addition-curing liquid silicone rubber having a compression permanent set of 10% or less at 150 degrees C and a Shore A durometer hardness of 10 to 60, in combination with the other limitations of the base claim.
